IT'S TIME TO GET DIET WHERE IT BELONGS...

MOVING? Please use form inside paper and give full information. Mailing list is run on Friday for following week.

I reckon there ain't very many subjects that have created more upsurge and accomplished as little as the fuses over the diet we Americans have been enjoying for all these years before the Burrocrats and Food Faddists convinced Congress we need to be told what we are supposed to like and what we are to be ordered not to eat whether we like it or not.

We was lissenin' on the radio the other day to some fellow and his wife who eat no meat and dang little in the way of processed food, they claim. Of course, they have writ a book pointin' out how the abysmal ignorance of you and me are to be changed and how meat probably or it be banned. They referred to meat as "flesh" and thereby displayed the typical fanatical fringe ability to make a dirty word out a clean one.

\$255 Million Tendered For Iowa Beef Processors, Inc., by West Coast's Pacific Holding Corp., Last Week

It was announced this week that the nation's largest meat packer, Iowa Beef Processors, Inc., has accepted an offer from Pacific Holding Corp. of \$255 million for the 82% of Iowa Beef's stock the privately held Pacific Holding does not now own. The transaction, if approved by holders of the majority of Iowa Beef's shares and regulatory agencies, would involve an estimated \$255 million dollars.

Pacific Holding is reportedly holding 810,000 shares of the 4.5 million Iowa Beef common shares either currently or potentially outstanding. Iowa Beef stock rose an average of \$14.50 per share Monday to a composite average of \$58.125 per share.

The proposal points up the capital intensive nature of all types of livestock and meat business and indicates that meat packing and beef industries are approaching the same position as other lines, including pork production. It has been pointed out recently that the reason pork production has not risen in the face of favorable returns to feeders is the automated nature of hog production and the relatively high cost of investment in large-scale facilities. AMERICAN RED BRANGUS ASSOCIATION NEWS

REUNION 20 — Biggest Red Brangus Event Ever!

By JOIN SOSNOWY

You are invited to the Hill Country of Texas on Dec. 1 & 2 for what promises to be the biggest Red Brangus Event ever. We are calling it "Reunion 20" because it all centers around our 20th annual membership meeting of the American Red Brangus Assn. There will be something for everyone including the first annual Red Brangus Assn. Heifer Futurity and Sale; 7th annual Paleface Ranch bull sale; 20th annual ARBA membership meeting. Lots of food, drink and fellowship.

Headquarters for Reunion 20 will be the famous Lakeway Inn located 20 miles west of Austin, Texas off Ranch Road 620. A block of rooms has been set aside for ARBA members and guests. Call 512/261-6900 for reservations.

The heifer futurity and both the bull and heifer sales will be held at the Paleface Ranch near Spicewood, Texas, 25 miles west of Austin off State Highway 71.

Here's the complete schedule of

events. Thursday night, Nov. 30, hospitality suite at the Lakeway Inn for early arrivals; Friday, Dec. 1, 10 a.m., Heifer futurity judging at Paleface Ranch Headquarters; 11 a.m., presentation of awards; Noon, Barbecue lunch; 1 p.m., 7th annual Paleface Ranch bull sale; 4 p.m., immediately after bull sale, sale of all Futurity heifers; 7 p.m., post-sale party at the Lakeway Inn.

Eighteen superior quality Red Brangus heifers from Texas and Louisiana have been nominated for the heifer futurity. Each ranch was allowed only one nominee, so every heifer is top of the line. Twelve heifers have been entered in the junior class, and 6 are entered in the senior class. As our Futurity judge, we are very fortunate to have secured the services of Dr. Larry

Anita Polk, recording secretary of American Red Brangus Assn., chats with her husband, Dale Polk, with a pen of Red Brangus in the background. She was gathering information for the ARBA's "Reunion 20" which will include the first annual "Superior Heifer" futurity show and sale, the 7th annual Paleface Ranch bull sale and 20th annual ARBA membership meeting, all coming up Dec. 1 and 2 west of Austin.

Boleman, extension area beef cattle specialist from Texas A&M University. Over \$2,000 in prize money will be awarded to the champion heifers.

Texas State Land Commissioner and Red Brangus breeder Bob Armstrong will be on hand to make the presentations to the winners.

All futurity heifers will be sold immediately following the 7th annual Paleface Ranch bull sale on the afternoon of Dec. 1. This sale will offer an unprecedented opportunity to acquire top-notch females of the kind that here-

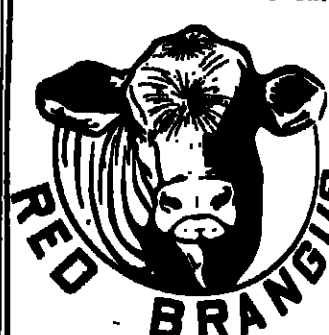

before have been unavailable at any price.

The birth of the Red Brangus Breed took place in Texas over 30 years ago when Mike Levi of the Paleface Ranch continued the crossbreeding program begun by his father. Mike still runs the Paleface Ranch operation today with the able assistance of wife, Fan, stepson, Johnny Cox and his wife Janio. Although they have been selling Red Brangus cattle for over 30 years, this is only their 7th public sale. One hundred bulls, the top out of this year's crop, will be offered in this year's production sale beginning at 1 p.m. on Friday, Dec. 1. Bert Reyes will be auctioneer and Matt Syler is Sale Manager. For further information and catalogs write Mike Levi, Rt. 1, Box 19, Spicewood, Texas 78669, or call 512/264-1711. Use this opportunity to try at least one Red Brangus bull and find out for yourself why they're known as "Profit Producers".

This year's general membership meeting is REUNION 20 — the 20th annual membership meeting of the American Red Brangus Assn. It will be (CONT. ON PAGE 9)

Tax Savings On Drought Losses — Farmers and ranchers may be able to save on income tax if they suffered drought losses during 1977, says an economist with the Texas Agricultural Extension Service. A rancher may be able to elect to defer reporting income from the sale of certain livestock because of drought conditions. Farmers may be able to elect to defer for one year the reporting of crop insurance payments from the tax year the crops were destroyed or damaged by drought. The Internal Revenue Service can provide the details.

Crop and Livestock Reports from Farmers, Ranchers Needed

(CONT. FROM PAGE 1)
of crops and livestock for the state of Texas and for each county.

Reliable information on what is produced, how much, and where is important to farmers, ranchers, and others in making production and marketing decisions and in providing an unbiased picture of Texas agriculture. These are also essential to farm organizations and legislators in promotion, planning, and enacting wise legislation and payment levels to producers under the various commodity programs.

The collection and publication of agricultural statistics are a cooperative effort between the Texas Department of Agriculture and USDA. This cooperation avoids duplication of effort, promotes economies, and increases the effectiveness of statistical reports. All is kept confidential, and only state and county summaries become part of the final published estimate.

County statistics for 1977 and January 1, 1978, are available on Livestock, Poultry, Dairy, Field Crops, Small Grains, Cotton, Vegetables, Fruits and Peas, and Cash Receipts from the Sale of Texas Farm Commodities. Bulletins can be obtained from the Texas Crop and Livestock Reporting Service, P. O. Box 70, Austin, Texas 78767.

or by writing Reagan V. Brown, Commissioner of Agriculture, P. O. Box 12847, Capitol Station, Austin, Texas 78711.

LIMOUSIN... THE AGGRESSOR.

The Oklahoma "Ranch Raised" Limousin Bull Sale

Wednesday, November 29, 1978
1:00 p.m.

At the Oklahoma Hills Limousin Ranch

Madill, Oklahoma
SELLING 50 HEAD OF "RANCH RAISED" 75% & 87%
LIMOUSIN BULLS

This sale will feature 50 head of "home grown" Limousin bulls, ranging in age from 18 months to 2 years...stout, rugged, and ready to go to work in your breeding program.

Many independent studies have proven the worth of the Limousin bull in both increased weights as well as excellent carcass merits. In today's market trend, it is to the producers advantage to be using a Limousin bull...are you?

These bulls have not been performance tested. All will be fertility tested prior to the sale and be guaranteed breeders.

If you need a bull to add more pounds at weaning time and produce excellent replacement females, be at the Oklahoma Hills Limousin Ranch, November 29.

Featuring consignments from Canadian Valley Ranch, Seminole, Ok., French Investments, Madill, Ok., and Hal Courtney, Madill, Ok.

Russians Purchase 460 Santa Gertrudis Cattle

Kingville - The largest purchase by a foreign buyer in the history of the Santa Gertrudis breed was made in mid-September when representatives of the Russian government selected 460 purebred heifers and 10 bulls for shipment to the U.S.S.R.

The Russians have been buyers of the breed in past years, but never in this quantity. Representatives on the buying missions purchased no other breed of beef cattle, indicating their preference for the Santa Gertrudis. They did purchase some Holstein dairy cattle.

Negotiations between the buyer and seller were handled by Tom and Sam Redford, Hamilton, Texas, brokers and Santa Gertrudis breeders. The Redfords were working with C. T. Barnes, Jr., managing director of American Marketing Services, Inc. International with headquarters at Richmond, Virginia. This firm had the contract to purchase the cattle for the Russians.

Tom Redford said that when he and his son got the contract to find the cattle, they contacted many breeders in the U.S.A.

Those who provided the animals are Don Wendt, Bay City, Texas - 100 females and 4 bulls; Moss Crommons, TS Ranch, Palo Pinto, Texas - 80 females and 3 bulls; John Wilson, Fort Worth, Texas - 6 females and 3 bulls; Lynn Ranches, Alford, Texas - 33 females; La Paloma Ranch, Riviera, Texas - 128 females; and Cullen Ranch, Waco, Texas - 100 females.

Prices received for the animals were not revealed. The cattle consisted of weaned and yearling heifers and yearling bulls.

Representatives of the Russian government who selected the animals were Dr. Ivan I. Vashchenko, deputy director of the All-Union Veterinary Research Institute, Moscow region; and Dr. Yuriy Shatokin, a veterinarian.

Other members of the buyers' group were the Redfords, Barnes, Lynn Howard of the Texas Department of Agriculture and Sara Kinsey of Washington, D.C., as interpreter.

Barnes will ship the cattle to the Virginia area where they will go into quarantine prior to being shipped to Russia, either by ship or by air.

Pesticide Laws Revisions Endorsed

Waco, Texas Farm Bureau President, Carroll Chaloupka, said the newly-amended pesticide law is a victory for both farmers and consumers.

A bill amending the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), administered by the Environmental Protection Agency, has just been signed by President Carter.

The Russian delegation and party shown while selecting cattle at the TS Ranch are, from left, Dr. Ivan I. Vashchenko of Moscow, head of the group; TS Ranch owner Moss Crommons; interpreter Sara Kinsey; Santa Gertrudis cattle brokers Sam and Tom Redford; Dr. Yuriy Shatokin, a veterinarian; and C. T. Barnes, Jr., managing director of American Marketing Services, Inc. International.

ing prudent concerns about the safety of a pesticide before the agency may issue an RPAR against the pesticide.

The provisions for state and federal issuance of experimental use permits are modified to permit greater state flexibility and require the federal government to act in a timely fashion.

8. The law is amended to permit the sale of restricted use pesticides to farmers who are not certified applicators if the pesticide application is to be made by a certified applicator.

9. Enforcement provisions of the law are amended to permit states to assume primary authority for enforcing the pesticide law. Currently, 30 states have a cooperative agreement and several other states are expected to participate in the program.

10. Federal oversight over state programs has been deleted. Federal review and veto authority over individually issued registrations of similar use patterns is deleted. EPA review of the individual registrations of dissimilar use pattern registrations (such as registering an outdoor pesticide for use within the home).

Wyoming had calves steady to 3.00 off. Prices accomplished the turn-around from recent downturns although factors to which to attribute the change in atmosphere are hard to come by. Slaughter steers and heifers seemed to be an up and down affair during the week with the general direction ranging on the lower side. Areas which have been complaining of dry conditions still have not received any moisture to relieve the situation.
